Cloudy Plastic Jugs.

Glass can be taken to Bigfoot. Glass needs to be rinsed. There is a fenced area behind Bigfoot where you can throw your unwanted glass containers.

Used lead-acid batteries can be taken to Bigfoot. Bigfoot now takes used lead-acid batteries at no charge.

Electronic Waste (E-Waste)

E-Waste is used computers, cell phones, TVs, and VCRs. Some materials, such as lead, nickel, cadmium and mercury could pose threats to human health and the environment if mismanaged at their end-of-life. Keeping used electronics out of the landfills, to recover materials and the environmental impacts and energy demands from mining and manufacturing will lengthen the life of the landfill. Recycling electronics recovers valuable materials and as a result, we reduce greenhouse emissions, reduce pollution, save energy and save resources by extracting fewer raw materials from the earth.

If you have any e-waste, call the CIV office, 767-5505 and ask for Daniel Klanott or Pat Warren.

Thank You to all the people who are up to date with their Water and Sewer Utilities

This keeps Klukwan's water flowing.
